A mare in foal to World Champion dressage horse [Totilas](#) has arrived at **Andrew Gould's** West Sussex yard.

Babyface, a black four-year-old graded mare by UB40, was bought at the Equine Elite Auction in Holland in October for an undisclosed figure by **Natasha Mitchell**.

The horse arrived earlier this week and Andrew told H&H she has **settled in well**.

"She seem very happy," he said. "She is a beautiful looking mare and I can't wait to see what she produces — I am very excited. The foal is due on 28 April — which is also my oldest son's birthday."

But Andrew's wife Polly tells H&H the **rider has come down with swine flu**.

"He is so ill poor thing. He missed [Olympia on Wednesday night](#) where he was meant to host a private box and also missed competing today (17 December) which was his last chance to qualify for some classes for the winter championships," she said.
