

# Babyface delivered to Andrew Gould

**N**atasha Mitchell from East Grinstead in West Sussex recently bought 'Babyface', from the Equine Elite Auction in Holland. This mare was the

first lot to be auctioned as she is a rather special four-year-old black mare, by UB40 and in foal to Totilas. She is in her own right a top class sport horse with amazing conformation and movement. She has just had the highest grading approval by the KWPN and is probably one of the most exciting mares in foal to this amazing stallion and now she is now in the UK. She is black, her mum was black so the chances are she will produce a black foal. As soon as she foals we will let you know!
